SYNOPSIS

Most of us have thought how much easier it would be to follow God if we could just see Him once. The truth, though, is that He is all around us. We just fail to see recognize the evidence.

There are many things, like gravity for example, which we can't see, but that we know are real because we see their effects on the world around us. In the same way, we can't see God, but we can see Him at work in this world. He is making Himself known, and the proof is all around us.

DISCUSSION QUESTIONS

- What proof can you offer someone of the existence of God?
- Think of a time when you encountered God personally. How did you know the encounter was real?
