SYNOPSIS

Since the beginning of time, man has thought he was smart enough to know everything about this world. Whether it was the shape of the earth or how computers would affect our lives, man always develops a theory. We just seem to be consistently wrong.

While knowledge is a noble pursuit, Proverbs reminds us to trust in God wholeheartedly rather than rely on our own understanding. As theories come and go over time, we can find comfort in knowing the God who is the same yesterday, today and forever.

DISCUSSION QUESTIONS

- Given all of the unknowns in the world, what things can we know for sure?
- Why do you think we insist on making definitive statements like those mentioned in the video about our world?
- Can you think of a time when you thought you had something, or everything, figured out? What can God teach us after we find out we were wrong?
